

The JCGS was established 30 years ago, in 1992, and has since evolved to a growing community with 75+ registered families. With Prabhujī's Krupa, we have been able to identify a 15000 sq. ft building for our Jain center which will help JCGS embark on a new journey for future generations. We are currently in contract for purchase of this property and the JCGS team has been working actively for the past few months to turn this dream and vision into a reality.

Total cost of the project is \$3.25M which includes renovation expenses. We have approximately \$2.2M available as capital/assets and we need an additional approximately \$1M to build the new center which will be open to all Jain sects (Shwetambar, Digambar, Sthanakvasi, Terapanth, and Krupalu Dev Shrimad Rajchandra Ji).

As we continue to actively seek support from within the JCGS Sangh, we are reaching out to you to seek donations from your accumulated Dev Draya funds. We also request you to invite your Sangh's individual members to take below Labh.
